ABOUT US

Fashion is an art form we love here at CCC. It's so much more than being in front of the camera, it's also about you: your body, how you present yourself, what you wear, and what you identify with.

We started the company in 2020 in Aarhus in Denmark and now we have shops all over Europe.

Under different scenerios, for places to be seen and the creative direction you want to show the world the you, you want to be. Fashion gives you a chance to become one with time. The idea for the company was youthful and stylish pants for woman.

All our fabrics are created from recycled plastic from the ocean to save all the animals that suffer from pollution.
